Nx-ON Antimicrobial Technology

EPA
Registered

USDA
Accepted

The Nx-ON Two-Step Process works continuously and provides an invisible bio-static protective coating.

Step 1. Our EPA registered disinfectant kills 99.99% of germs.

Step 2. Our microbiostatic coating inhibits the growth of odor causing bacteria and fungi (mold and mildew), bacteria and fungi (mold and mildew) which cause staining and discoloration and algae.

•EPA Registered •USDA Approved •Odorless and colorless
•Highly durable •Non-leaching •Prevents biofilm buildup
•Water Based •Non-Toxic technology
