

Law Enforcement Industry Nx-ON Antimicrobial Technology

EPA
Registered

USDA
Accepted

By applying Nx-ON's disinfectant/microbiostatic agent coating, all treated surfaces will be rendered 99.99% germ free due to our disinfectant.

The Nx-ON antimicrobial works continuously and provides an invisible microbiostatic layer of protection to prevent the spread and growth of bacteria (Which cause odor, staining, and discoloration), mold, and mildew.

·Water Based ·USDA Approved ·Odorless and colorless ·Protects a wide range of surfaces ·Highly durable ·Non-toxic technology after drying
·Non-leaching, mechanical method of efficacy
