Amstar Cinemas 16

July 25, 2013

To Whom It May Concern:

US Enviro Services has been a valued contribution to Amstar Cinemas 16's on-going efforts to have the cleanest and safest environment while enjoying a quality movie experience. Since the first installation of the product during the first quarter of 2013, there has been a significant reduction in the amount of staff sicknesses. As well, public perception is very positive due to the Bio Static posting of the 99.99% Germ Free certification for Amstar 16's lobby and concession department. Multiple patrons have commented in a very positive manner about the display signage regarding the cleanliness of the facility. Amstar Cinemas greatly appreciates the cleaner atmosphere for the staff (and patrons), while building a positive rapport within the movie going guest experience.

Sincerely,

Wesley Clark
General Manager
